Sir,

Sub: Non-Provisional Patent Application with small entity status

I, Shaik Cheman, hereby submit my Non-provisional patent application with small entity status along with the necessary patent fee US\$ 355 for my invention titled "Absolute public key cryptographic system and method surviving private-key compromise with other advantages".

A disclosure document for this invention was mailed to your office on September 17, 2000 along with a fee US\$ 10. The disclosure document was titled "CRYPTO DIAMOND - A very powerful public key encryption and decryption method and algorithm several billion times powerful than the present day alternative ones". A copy of the same is attached to this letter for your easy tracing of the document.

Please note that I have changed the title of my invention in the non provisional application for simplicity and better conveyance of the meaning. Also note that certain words like "twisted and sheared public key" in the disclosure document are replaced by words like "blinded keys and multiple component keys" in the specification of this patent application for more appropriate ness of meaning.

As I am an independent inventor, I would like to be considered as small entity for reduced patent application fee.

I request you to kindly process my application for a utility patent.

Thanking you sir,

Shaik Cheman
